Programs are designed for families with children.

Space is limited—call ahead of time to pre-purchase your spot!

\$5 general / \$3 ages 4-11. Members \$4 / \$2 ages 4-11

Ages 3 & under FREE.

Programs are subject to change depending on weather

Saturdays – 10:30am	Sundays – 1:30pm
<p>January 4 – *River Romp* - Walk down the beautiful American River. A Naturalist will guide you into the world of some of the amazing critters that have adapted to life down by the rushing waters of the river.</p> 	<p>January 5 – *Invasive Invaders* - At Effie Yeaw we have a few non-native plant and animal species that have taken up residency in the preserve. Learn about the history of a few of these trespassers, their role in the current ecosystem and what people are doing to lessen the issues that come along with these invasive invaders.</p>
<p>January 11 – *Crown of Antlers* - The bucks are in their winter glory, with beautiful antler crowns. Grab your binoculars to catch a closer look at the black-tailed deer in their habitat and learn more about their world.</p> 	<p>January 12 - *Hawk Talk* - Come learn about these amazing raptors that have color vision eight times better than humans. Get a rare close-up look at hawks and learn more about the hawk family.</p>
<p>January 18 – *Birding for Families* - Bring the family out for a birding and nature walk led by a naturalist and our special guest guides from the Sacramento Audubon Society. Birdwatchers of all levels welcomed. Make sure to bring your binoculars or borrow a pair from us.</p>	<p>January 19 – *Walk on the Wild Side* - Winter casts its chilly spell and gives nature its own special winter beauty. Walk with a Naturalist and explore this season in the woodland.</p> 
<p>January 25 – *Turkey Vulture Adventure* - What bird wants meat but can't kill its own food? These relatives of the condor and stork are intelligent, family-oriented, and play games together! Learn more about these amazing birds and their importance to our ecosystem.</p>	<p>January 26 – *Animal Tracks & Signs* - There are many animal-made signs in the woods that reveal who has used the trail before you. Become a nature detective by playing tracks and scat games, then take a walk to find some animal signs in the Nature Area.</p>

Did you know? The Nature Center's Nature Study Area is a designated California Watchable Wildlife site. This is a state designation that is awarded based on a site's wildlife viewing values, quality and diversity of habitats and visitor amenities that include protection from overuse of the natural area. We are committed to nature education in our community that helps build support for the long-term conservation and management of California's natural resources.

Birds of Winter in the Sacramento Valley

Part of the Nature of Things Speaker Series

Join us in January and February for this wonderful program!

Lectures ONLY—\$60 for ARNHA members, \$70 for non-members

Birds of Winter includes **three** informative lectures in January and February—all led by instructor Ed Harper. If you have an interest in birds, you won't want to miss these!

*This program suitable for ages 12 and older.
 Pre-registration required—space is limited.
 Call or visit website for dates and other details.*
