Saturdays – 10:30am	Sundays – 1:30pm
<p><b>August 4 – Saturday Safari</b> Grab your binoculars to catch a closer glimpse of the animals and plants that make up the unique habitat along the American River.</p>	<p><b>August 5 – Reptile Rapture:</b> Can a turtle climb out of its shell? Do snakes blink? Can you really tell the age of a rattlesnake by the number of buttons on its rattle? Discover all this and more in this program.</p>
<p><b>August 11 – Deer Toes and Coyote Paws</b> Learn to read the tracks of rabbit, deer, coyote, turkey and the clues that animals leave behind!</p> 	<p><b>August 12 – Eureka!</b> Grab a pan and catch gold fever! Learn about some of the local Gold Rush history and get your hands dirty as you learn how to pan for gold in hopes of striking it rich.</p>
<p><b>August 18 – Those Wacky Woodpeckers:</b> Woodpeckers are instantly recognizable by their unique behavior of pecking vertically on trees and poles, but how much do you really know about these outstanding birds? We will clue you in.</p>	<p><b>August 19 – Bugs and Beyond!</b> Explore the amazing world of invertebrates! Learn how to find, handle, sketch and identify various hoppers, crawlers, fliers, swimmers and slimmers of the Preserve.</p>
<p><b>August 25 – Let the River Run Clean:</b> Take a hike to the river and learn some ways we can help take care of it and the salmon, egrets, beavers and other wildlife that depend on its clean water. As we learn, we'll put on some gloves and help clean the river by collecting trash along the banks.</p>	<p><b>August 26 – Owl Be Seeing You</b> When are owls most active? Can they turn their heads all the way around? Discover how you can find out exactly what they have eaten. Meet a resident owl of the Nature Center and learn the answers to these questions and more.</p>
